UNVEILING THE INNOVATIVE

COME SEE A NEW LEVEL OF PANEL PROCESSING PRODUCTIVITY

**SEE THE T-SERIES
DEBUT, LIVE AND
IN ACTION, AT IWF
BOOTH B4813.**

The T-Series will maximize your throughput, your material yield, your material removal rates, and your profits. The flexible, easy-to-use automated material-handling systems are customized to fit the flow and growth of your panel processing operation. With scalable automation, your products will come off the machine faster, more precise, and installation ready.

First-ever IWF influencers lounge

IWF is staging its first Woodworking Influencers Lounge (Booth A10620), sponsored by Shaper, featuring live, in-person appearances by more than a dozen woodworking pros who are popular online. Appearance times for these respected woodcrafters have now been set:

Event emcee: Ethan Abramson | Building Your Furniture Brand

Woodworking Influencers Lounge emcee Ethan Abramson is host of the popular podcast Building a Furniture Brand.

TUESDAY, AUGUST 23

1:00 p.m. Ramon Valdez Fine Furniture | Ramon Valdez

1:30 p.m. Jonathan Katz-Moses | Katz Moses Woodworking Shop

2:00 p.m. Fulton Fine Woodworks | Ronnie Fulton

2:30 p.m. Nolan Built | Nolan Thompson*

3:00 p.m. 3D DIY | David Miao

WEDNESDAY, AUGUST 24

1:00 p.m. IzzySwan.com | Izzy Swan

1:30 p.m. ToolGirlsGarage.com | Sarah Listi

2:00 p.m. CountryTables.com | Daniel Wellens

2:30 p.m. TheWrightEdge.com | Doc Wright

3:00 p.m. KJ Sawdust | Keith Johnson

THURSDAY, AUGUST 25

1:00 p.m. The Wood Maven | Char Miller-King*

1:30 p.m. Alabama Woodworker | Huy Huynh

2:00 p.m. Coffey Custom Builds | Mike Coffey

2:30 p.m. MarktheBuilder.com | Mark Robertson

3:00 p.m. Woodshop Mike | Michael Poorman

Stop by the IWF Beer Garden

The IWF 2022 Beer Garden offers a place to dine and connect with other attendees and exhibitors. Sponsored exclusively by Weinig Holz-Her, the Beer Garden offers a selection of food and beverages on tap in a new easy-to-access International Boulevard Entrance location.

The Beer Garden is open daily throughout IWF 2022:

Tuesday, August 23

Wednesday, August 24

Thursday, August 25

EVENTS

Tuesday, August 23

Winners of the distinguished Challengers Award will be announced at **11:00 a.m. at the IWF Challengers Award Gallery located in Hall B, Level 2, overlook area.**

Winners will be announced, and prize money presented at **3:30 p.m. in the Design Emphasis Gallery in Hall C.**

IWF Online Silent Auction: Show attendees and exhibitors will be able to view most of the auction items displayed on tables located at **booth C2123 of Building C.**

Genesis Products celebrates its 20th anniversary with a happy hour from **3:30 p.m. - 5:30 pm. RSVP required. Booth BC937**

WMIA Happy Hour **5 p.m. - 6 p.m. in room B213.**

WMMA Happy Hour **5 p.m. - 6 p.m. in room BC206.**

Wednesday, August 24

IWF Online Silent Auction: Show attendees and exhibitors will be able to view most of the auction items displayed on tables located at **booth C2123 of Building C.**

Olon Industries celebrates its 40th anniversary with a happy hour from **5 p.m. - 6:30 pm. At booth C2040. RSVP required.**

CMA Member Appreciation Reception & Wood Diamond Awards Ceremony will be held at **5:30 pm in Room B306.**

WPMA reception from **6:15 p.m.-7:30 p.m. in the High Velocity Lounge inside the Marriott Hotel-Members only.**

IWF Night at The Tabernacle 2022, **8 p.m. - 10 p.m.** gives attendees and exhibitors the top spot to network, socialize and reconnect in a landmark entertainment venue steps away from the GWCC. Private performance by Southside Station.

IWF auction supports WCA

The online silent auction benefiting the Woodwork Career Alliance of North America (WCA) will culminate with a live showing and final bidding of the lot items. Net proceeds of each winning bid will help support WCA programs geared to develop and grow a skilled woodworking workforce in the United States and Canada.

The digital auction will feature dozens of bid items spanning autographed collectables, framed sports and entertainment memorabilia, fun-filled travel packages, jewelry, and much more. Among the auction items that will be displayed at booth C2123 include:

- Tom Brady signed Tampa Bay Buccaneers helmet;
- Patrick Mahomes signed Kansas City Chiefs helmet;
- Mick Jagger signed guitar;
- Tuscany (Italy) Luxury 7-Night Stay for 2; and
- Mykonos (Greece) Escape 5-Night Villa Stay for four.

The special fund-raising event to support the not-for-profit WCA is being presented through the collaboration of Expo Auctions of Sugar Hill, Ga., and IWF, North

America's largest industrial woodworking event. The show is owned by the Wood Machinery Manufacturers of America (WMMA) and the Woodworking Machinery Industry Association (WMIA).

Separate silent auctions will take place on each of first three days of IWF, Tuesday, Aug. 23, through Thursday, Aug. 25. Show attendees and exhibitors will be able to view most of the auction items displayed on tables located at booth C2123 of Building C of the Georgia World Congress Center

Expo Auctions' mobile bidding platform allows bidders to participate from anywhere in the world using their smartphones. Individuals who are unable to attend this year's show can still bid on items to support a good cause.

As easy as 1, 2, 3

To participate in the silent auction and review all auction items:

1. Visit the official auction website **LastBidWins.expobid.co**.
2. Register your mobile phone number, email, and name.
3. Submit your bid on the item or items of your choice.

Participate in the WCA's auction for a chance to win a range of prizes ranging from signed sports memorabilia to a trip to Greece.

Five selected bid items will close each day at 5 p.m. on Tuesday, Aug. 23, and Wednesday, Aug. 24. All remaining items will close at 4 p.m. EST on Thursday, Aug. 25. Text notifications will be sent to bid winners at the close of each day's auction communicating payment options. All winning bids include free shipping within the continental U.S. Bid winners may also choose to pick up their items during designated hours at booth C2123.

Win prizes at Woodworking Network's IWF booth

Like winning prizes? If the answer is yes, stop by the **Woodworking Network** booth (**A10707**) and renew or start a subscription to either **FDMC** magazine or **Closets & Organized Storage** magazine (or both) and automatically be eligible to win some great prizes.

Prizes include an Amazon Echo (4th Gen), Hidrate Spark 3 smart water bottle, Polaroid Hi-Print Pocket Photo Printer, and \$100 Amazon Gift Cards.

Winners will be drawn from the pool of entrants who filled out the online subscription form at our booth. Winners do not need to be present to win the prize.

But everyone wins with a free subscription to either publication.

FDMC is a monthly magazine for the professional woodworker. Among its monthly features is the renowned Wood Dr. Gene Wengert, talking wood

and answering your questions, and editorial director Will Sampson bringing his decades of woodworking experience to our readers.

Closets & Organized Storage magazine is geared toward designers, fabricators, retailers, and installers of commercial and residential storage systems. Get the ins and outs of this lucrative and fast-growing market with every issue.

Stop by the Woodworking Network booth (A10707) and enter to win prizes such as this Amazon Echo.

TIME TO BRING IT IN-HOUSE

IN-SOURCE YOUR PCD WORK WITH THE WALTER HELITRONIC RAPTOR DIAMOND

Visit us at IWF
booth #BC909
to learn more

If you're frustrated with the lack of control that comes with outsourcing PCD toolmaking, there's a machine at International Woodworking Fair you'll want to see: the **WALTER HELITRONIC RAPTOR DIAMOND**. With its quality and price, there's no better way to produce PCD tools in-house. **See us at IWF 2022, booth #BC909.**

Leadership Reception draws large crowd

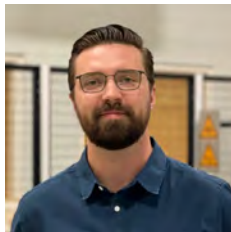

40 Under 40 honored for industry achievements.

An enthusiastic crowd was on hand as honorees of the 2022 Wood Industry 40 Under 40 were recognized last night at a special Leadership Reception. This year marks Woodworking Network's seventh annual awarding of the 40 Under 40, which celebrates industry professionals who are making an impact at their jobs, in the community, and on the North American woodworking industry.

"This year's team of honorees will join 242 alumni who have been recognized with this distinction in the past," said Tim Fixmer, president and CEO of CCI Media, the parent of Woodworking Network. "We are excited to invite the entire industry to celebrate with [us] some of the

Awards: 40 Under 40 Continued...

youngest, best, and brightest contributors to wood products manufacturing in North America.”

The 40 Under 40 Class of 2022 is sponsored by PaintLine. The class includes manufacturers, suppliers, developers, designers, educators, and consultants, from all segments of the woodworking industry, including: cabinetry, furniture, architectural woodwork & millwork, closets and home organization, retail fixtures, and wood components.

“This generation of woodworking industry leaders has faced challenges and uncertainty on a grand scale in the last few years,” said

Harry Urban, FDMC publisher, a Woodworking Network publication. “Nevertheless, they have managed to prosper, inspire, educate, and innovate. Congratulations to all of the Woodworking Network 40 Under 40 honorees.”

Honorees at the reception received a commemorative pin. They also were given an engraved plaque, provided by Epilog Laser.

The 2022 honorees also will be recognized at future industry

events including the Executive Briefing Conference (EBC), Sept. 15-17 at the Broadmoor in Colorado Springs, Colorado. In addition, they will be profiled in the October issue of FDMC and online at WoodworkingNetwork.com.

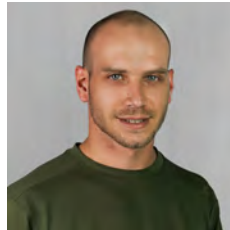

More information on the 40 Under 40 can be found at WoodworkingNetwork.com/40-under-40. For inquiries about the industry recognition program, email karen.koenig@woodworkingnetwork.com.

INTERNATIONAL
WOODWORKING
FAIR® ATLANTA

Woodworkers converge on Atlanta

IWF attracts thousands from North America and around the world. This year's event is projected to be a huge draw as the overall strong demand for wood products across all industry sectors — despite the pandemic — is not expected to abate soon. All halls at the GWCC — A, B, C, and the newly constructed BC connector — will be occupied by close to 900 exhibitors on hand with products, services and expertise to advance the woodworking industry.

Along with the hundreds of vendors displaying the latest technologies and supplies, IWF features an education conference with more than 50 sessions and numerous opportunities to network:

- Thousands of top brands will be on display, with many cutting-edge demos live on the show floor.
- See award-winning exhibits. Check out the products entered in the IWF Challengers Award to look at the latest woodworking

innovations. Winners of the distinguished Challengers Award will be announced at 11:00 a.m. on Aug. 23, at the IWF Challengers Award Gallery located in Hall B, Level 2, overlook area.

- Also, check out the Design Emphasis Showcase featuring furniture pieces designed and built by college/university students. Categories include Seating, Case Goods, Commercial/Office/Hospitality Furniture, Accent Furniture/Accent Tables, and Design Creativity. A prize is also given for the Best of Show. The winners will be announced, and prize money will be presented at 3:30 pm on Aug. 23 in the Design Emphasis Gallery in Hall C.
- Network and take advantage of the opportunities to learn new methods and solutions to your business challenges from industry leaders during booth visits, conferences, or just talking on

the show floor. Help your company work more efficiently and become more profitable.

- IWF will host a Woodworking Influencers Lounge for the first time during the show. The lounge will be adjacent to the IWF Network News exhibit, in BC hall.

For more information and updates about IWF 2022, visit iwfatlanta.com.

Stop by **Booth A10849** and meet the newest addition to the Chatternator™ Family

You asked and we delivered!

The **NEW** Chatternator™ 12" Profile Sander has a sanding hub that can sand up to 12" of material at one time without distorting the profile — perfect for wide trim, multiple pieces of narrow trim, or small cabinet doors

Also available are the original 6" Stand Alone Profile Sander and Add On model (fits Woodmaster 718)

The Chatternator™ Profile Sander is a must have for Woodworkers who **HATE** sanding and want to save time, money, and physical wear and tear!

Tips to navigate IWF 2022

To get the most out of the IWF, here are tips for navigating North America's largest woodworking show.

Logistics: Show hours at the GWCC are 8:30 a.m. to 5:00 p.m. Tuesday through Thursday, and 8:30 a.m. to 2:00 p.m. on Friday.

The GWCC is located in downtown Atlanta, near Centennial Olympic Park, at 285 Andrew Young International Blvd. It is within easy walking distance of most downtown hotels, and a complimentary shuttle bus service also is available from select hotels.

Comfort is key: Be sure to wear comfortable shoes. IWF stretches across more than 1.5 million square feet. Halls A and B will have machinery and related products/services, Hall C will have components/supplies, non-machinery related products/services, and Hall B/C will be a mix of components/supplies, machinery and non-machinery products/services.

Stay on top of news: Woodworking-Network.com (Twitter: @woodworkingbiz) will post show news throughout

the day. Also make sure to grab a copy of Woodworking Network's IWF Show Daily, filled with news and pictures, as well as the IWF floor plan.

Get educated: IWF also offers educational sessions Tuesday through Thursday related to: Business Management, Manufacturing & Design, Marking & Business Development, and Workforce Maintenance & Organized Culture. Go to IWFAtlanta.com.

See award-winning exhibits: Be sure to check out the products entered in the IWF Challengers Award. A list of 2022 Challengers Award entries and finalists can be found at IWF's website. Winners of the distinguished Challengers Award will be announced at 11:00 a.m. on Aug. 23, at the IWF Challengers Award Gallery located in Hall B, Level 2, overlook area.

Also check out the Design Emphasis Showcase and competition featuring furniture pieces designed and built by college students. Winners will be announced, and prize money presented at 3:30 pm on Aug. 23 in the Design

Emphasis Gallery in Hall C.

Get a deal: Exhibitors are often willing to sell a machine displayed at the show rather than incur the costs to ship it back to the facility. There may be a good deal to be had, so don't hesitate to inquire.

Network opportunities: Don't hesitate to ask questions or seek advice, and be sure to inquire about the products and services that can help improve your business.

Industrial Controls and Automation Systems

The **nDepth** provides color and 3D (length, width, and distance) lateral measurement for industrial applications detecting missing parts, holes, wane, and other types of defects in material regardless of color to improve inspection and cutting processes.

The **Board Footage Scanner** supports full layer scanning for the automatic stacker environment including full barcoding features as well as exporting bundle and load data for use by your inventory system.

The **Lumber Tally System** offers scanning, sorting, pre-optimization, and/or grading for the lumber yard supporting inbound/outbound load tally and can be configured to export directly to your yard tracking software.

The **nScan** line supports full layer high performance lineal scanning for wood/wood products. Options include:

nScan Chop

800FPM+, Single to 4 Sided 3D shape & Color for thru-feed chop systems

nScan PushCut

Integrated scanning options for push-cut scanning systems

nScan Rip

600FPM+, Single or Double-Sided 3D shape & Color for ripping systems

From simple automation to complex controls, we can assist you in your next project design and implementation. AikenControls is a provider of:

Innovation

Evolved

Introducing the newest member of the COMPACT family

COMPACT CLIP

The COMPACT CLIP hinge combines more than 50 years of innovations. The clip technology allows easy clip-on installation and three-dimensional adjustability, allowing for fast and accurate door attachment. We consistently think of new ways to streamline processes and design products that reduce the risk of callbacks, saving our customers time and money. It's this innovative thinking that gives you the peace of mind knowing your work has quality products you can count on - now and for years to come.

The Easy Way to Make Custom Cabinets *With No Programming*

Designed and Engineered in America, the Cut Ready Cut Center is made to simplify and automate your production.

*The Cut Center takes care of both the big
and small details so you don't have to!*

It allows you to remain a cabinet shop, focused on making custom cabinets, instead of a software company, worried about learning difficult and expensive software.

MADE IN USA

What Cut Center Owners Are Saying:

THE NEW SATAjet K 1800 spray mix – High pressure coating has never been easier

The new lightweight gun in this spray gun class with its well-balanced gun body combines an optimized ergonomic design with a finely-tuned nozzle range and with the innovative clampLock paint needle system.

The SATAjet K 1800 spray mix is an excellent tool for a wide range of applications in various sectors – from the woodworking and automotive industry to machinery, steelwork and also shipbuilding and container construction.

- Low weight (starting with 14.5 oz, depending on spray gun version)
- High surface quality at a pressure in the range of 500 - 3625 psi
- Application of water- and solvent-based paint systems
- Single-axis trigger system for low trigger forces, fatigue-free working

"The PivotLine System has been, hands-down, one of our best purchases."

Chad Hamilton, Co-Owner
Pig House Cabinets, Ringgold, GA
pighousecabinets.com

Watch the full interview by scanning the code with your phone's camera

PIVOTLINE™

Chad Hamilton of Pig House Cabinets shares his impressions of the PivotLine Manual-Rail Finishing System.

"The biggest transformation to our finishing process was being able to finish both sides of a door at the same time.

"Like most shops, we were using trees and spraying one side and waiting 8 hours for it to cure-out so you could stack it or flip it and finish the other side.

"The flat finishing workflow is tedious and full of wasted movements. You take the door off the tree, set it down on a turntable, pick up your gun, spray the door, set the gun down, put the door back on the tree and repeat.

"You're constantly picking up and setting down the gun and the doors. All of that is eliminated with the PivotLine System."

"Before we switched to the PivotLine System our spray booth was one of the slowest places in our shop. The PivotLine System has totally removed the bottleneck from our finishing process, and for the first time, our finishing is keeping pace with our fabrication.

"The PivotLine System has been, hands-down, one of our best purchases and one of the most drastic improvements we've made to our shop. It's met every single one of our expectations - we're very happy with it."

For more information visit guffeysystems.com

PivotLine mobile rails allow for touch-free handling, finishing, and movement of parts and materials throughout the finishing process.

Our patented PivotLine rail cars pivot and lock at 90° increments giving the finisher a stable platform to easily spray all sides of the material.

for any output volume requirements. We have been the leader in frame saws since 1970.

Precision Thin-Cutting Band Saws
in many configurations to meet your exact requirements including future growth in output volume and your product variations. Cutting up to 26" wide with +/- 0.008" tolerance, 0.043" cutting kerf and a surface quality ready for glue!

TRC Timber Repair & Cosmetics
With this technology you now can repair larger knots and cracks than before with traditional putty. The void is filled 100 % in depth allowing for no failures, no shrinkage, no cure time, can be handled, stacked or sanded immediately, and this application only takes seconds!

Jason Fry, Sales Manager, Phone: +1 801 550 4878, jason.fry@wintersteiger.com

***Come see us at booth B8029
to watch our CNC tools in action!***

With a **ShopBot CNC**, you can increase production throughput while minimizing material handling. For example, you can drill shelf pin holes, cut rabbets and dados, and profile-cut the completed panel. The operator only needs to handle the full sheet once to load the machine, and then remove the perfectly cut parts that are ready for assembly.

Thanks to the affordability of ShopBot's professional grade CNC tools, the technology of manufacturing cabinet boxes, doors, drawer fronts, shelves, and even countertops, is now well within the reach of smaller shops, not just large cabinet manufacturing facilities.

Cooper Enterprises to launch new closet program

Contract manufacturer and outsourcer Cooper Enterprises, working in partnership Stiles Digital, is launching a new web-based Configurator 3D Platform at IWF, allowing the company to increase the speed of quoting, streamline order entry, provide manufacturing data, and help its customers' sales teams present 3D visualization of projects, all in one step.

Show attendees stopping by Cooper Enterprises, Booth C2246, will be able to view its new closet program on the Configurator 3D Platform from Stiles Digital. It is currently in development and will launch early 2023.

Cooper Enterprises outsources and manufactures wood and laminated components and complete assemblies. It provides panel lamination, cut-to-size, CNC machining, edgebanding, miter-folding, and assembly services for the woodworking industry.

To learn more about Stiles Digital Hub, which highlights digital integration in manufacturing, and to view demos and production simulations, visit Booths B5034, B5052 and stilesiwf2022.com.

Valinge is showcasing its Threespine technology, which received the Interzum "Best of the Best" award in 2019. Visit Booth C2366 to learn more about the click furniture technology.

EVENTS

Thursday, August 25

IWF Online Silent Auction: Show attendees and exhibitors will be able to view most of the auction items displayed on tables located at booth **C2123**.

Robotic Evolution in the Wood Factory - **1:00 p.m. to 2:30 p.m. in room B303**.

Friday, August 26

Trade show floor hours from **8:30 a.m. to 2:00 p.m.**

The symposia photos in Tuesday's edition of the Show Daily were taken by Robb Cohen Photography & Video.

IWF materials finder

Materials suppliers never stop innovating, and this year's IWF is proof positive that no matter your challenge, these leading suppliers are ready with solutions. Whether you're looking for fresh designs, enhanced durability, or better climate-positive properties, you'll find them this year at IWF.

StevensWood's IM-PAX TFL for Incredible Resistance

IM-PAX is a unique decorative panel that utilizes a proprietary TFL resin formulation that is engineered to meet or exceed Vertical Grade HPL surface performance standards on typical substrates such as particleboard or MDF cores. IM-PAX was developed to leverage new resin technologies and with modern manufacturing techniques to provide an innovative surface at an economical price point. See IM-PAX at booth C1540

Nine New 3DL Designs & More on the Way

Synergy Thermal Foils, the premier source for textured thermofoils, introduces nine new designs to its extensive in-stock 3DL collection, including:

- Three new Elms – Corvina, Rococo, and Sultana (shown) matching TFL from Funder America.
- Two new Walnuts – Cococa and Oatfield matching TFL from Kronospan.
- Four new Oaks – Carolina, Charleston, Highlands, and Williamsburg matching TFL from Funder.

See these and more 3DLs at IWF booth C1208.

Powder Coating for Wood. Perfected

PPG ENVIROCRON® HEATSENSE coating brings the performance and aesthetic advantages of

StevensWood's IM-PAX TFL for Incredible Resistance

powder coatings to heat-sensitive substrates with curing in as few as five minutes at 250 degrees Fahrenheit. This patent-pending, low-cure powder is ideal for wood, wood composites, MDF, plywood and other heat-sensitive substrates.

Visit PPG at booth BC912.

Intelligent Surfacing Through Transformative Technology

Arclync surfacing technology transforms wood and non-wood panels from ordinary to extraordinary. Our groundbreaking surface technology is not only easy-to-press, it can also be applied to an infinite range of panel surfaces: creating exceptionally smooth, to hyper-realistic wood textures. Arclync gives unparalleled protection against anything life can throw at it: sun, moisture, scratches, dings, bacteria. You name it, Arclync will protect from it.

See Arclync from Arclin at Booth C1008.

Powder Coated Wood Components: Sustainable, Durable, Beautiful

BTD Wood Powder Coating manufactures powder coated wood

Synergy Thermal Foils 3DL Designs

components with our unique t.fusion™ powder coating finish. Offering clear, tinted, and opaque colored finishes on:

Hardwoods (maple, cherry, walnut, bamboo, Baltic birch etc.)

- Veneers
- MDF
- Wide variety of temperature sensitive substrates

Specify t.fusion™ wood powder coating in your designs for a high quality, extremely durable, attractive, and sustainable finish that's easy to clean.

Visit BTD at Booth BC709.

Challengers Award winners

Winners were presented with their trophies during IWF.

Winners of the 2022 Challengers Distinguished Achievement Award were announced Aug. 23 during IWF. Selected from a field of 20 finalists, the winning entries demonstrate innovative technology in products, services, or manufacturing techniques that will advance the industry.

Judges for the 2022 Challengers Award were: Perry Falls, Dura Supreme Inc., Joe Baggett, Innovative Wood Products, Mark Bernhard, Bernhard Woodwork Ltd., Ken (K.P.) Rumfelt, Kimball International, Jon Scribner, Batesville Casket Co., Todd Shapiro, Decorative Specialties, Tom Vernot, Sauder Woodworking, Jerry Koetter, Koetter Woodworking, and Christopher Rivard, Andersen Corp. For information on the Challengers Award visit iwfatlanta.com.

Judge Tom Vernot of Sauder Woodworking (right) presents the Challengers Award to Topp Line/Blind Stapler's Stuart and Michelle Topp, and the next generation, granddaughter Gabrielle. The company won for its Blind Stapler product.

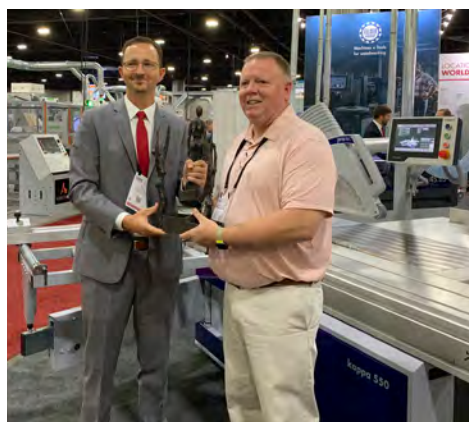

Judge Perry Falls of Dura Supreme (right) presents the Challengers Award to Giuseppe Bacci of Bacci America. The company won for its T4MO CNC turning lathe.

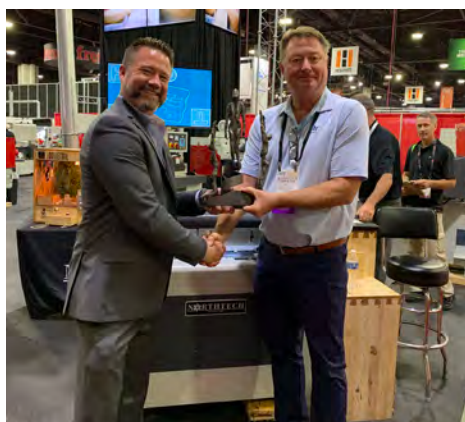

Judge Ken Rumfelt of Kimball International (right) presents the Challengers Award to Federico Broccoli of Biesse America. Biesse won for its T-Jet dust mitigation system.

Judge Jon Scribner, Batesville Casket Co. (center) presents the Challengers Award to Gordon Burdis (left) & Josh Renner (right) of Cameron Automation which won for its Rack & Stack system.

Judge Jon Scribner of Batesville Casket Co. (right) presents the Challengers Award to Ruan du Toit of Felder Group USA. Felder won for its PCS (Preventative Contact System).

Judge Jerry Koetter of Koetter Woodworking (right) presents the Challengers Award to Brandon Koetter of Northtech Machine which won for its iDovetail single-spindle CNC dovetailer.

Judge Mark Bernhard of Bernhard Woodwork (right) presents the Challengers Award to Matteo Fregosi of Salice America. Salice won for its CQ full access hinge.

CMA'S 2022 awards program recognizes industry excellence

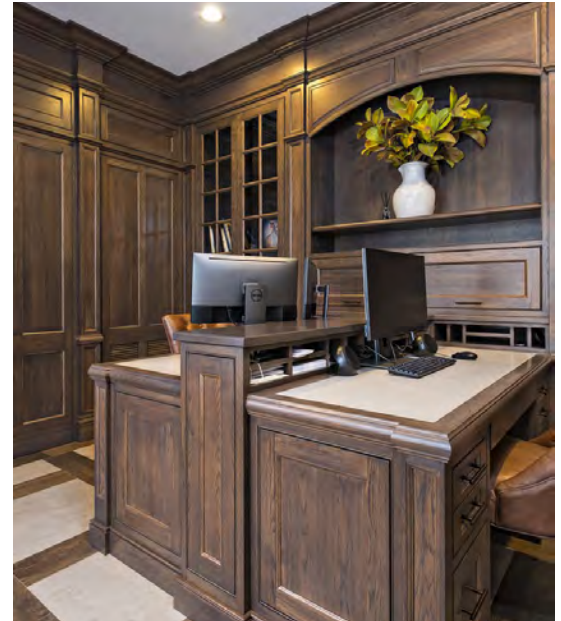

The Cabinet Makers Association (CMA) announced the winners of its 12th annual Wood Diamonds Awards program on Wednesday, August 24 at a member appreciation reception.

The awards were launched in 2010 to allow members to honor the work of their peers. The contest has given the organization an opportunity to promote excellence in the industry, and the winners share these honors as part of their marketing efforts.

"The Wood Diamond Awards have given us a chance to see and showcase the amazing work of our members," says CMA Executive Director Amanda Conger. "Our members don't always get a chance to see each other's finished work, and the added bonus is that the award-winning work can inspire other shops."

The Best of, Best Overall award went to Dennis Letendre of Letendre Custom Woodworks (Hobe Sound, FL) for a home office with a double desk with custom wall panels made from hickory with a stained finish.

The 2022 Wood Diamond Award winners were chosen by their peers in the organization; the judging panel is comprised of CMA members who did not submit their work in this year's competition. First-place winners receive a customized wood diamond-shaped plaque, and those recipients are recognized by category on the following page. Details and photos for all projects can be viewed at www.cabinetmakers.org/2022-winners.

Dennis Letendre of Letendre Custom Woodworks won the Best of, Best Overall award.

INTERNATIONAL
WOODWORKING
FAIR® ATLANTA

Woodworkers converge on Atlanta

IWF attracts thousands from North America and around the world. This year's event is projected to be a huge draw as the overall strong demand for wood products across all industry sectors — despite the pandemic — is not expected to abate soon. All halls at the GWCC — A, B, C, and the newly constructed BC connector — will be occupied by close to 900 exhibitors on hand with products, services and expertise to advance the woodworking industry.

Along with the hundreds of vendors displaying the latest technologies and supplies, IWF features an education conference with more than 50 sessions and numerous opportunities to network:

- Thousands of top brands will be on display, with many cutting-edge demos live on the show floor.
- See award-winning exhibits. Check out the products entered in the IWF Challengers Award to look at the latest woodworking

innovations. Winners of the distinguished Challengers Award will be announced at 11:00 a.m. on Aug. 23, at the IWF Challengers Award Gallery located in Hall B, Level 2, overlook area.

- Also, check out the Design Emphasis Showcase featuring furniture pieces designed and built by college/university students. Categories include Seating, Case Goods, Commercial/Office/Hospitality Furniture, Accent Furniture/Accent Tables, and Design Creativity. A prize is also given for the Best of Show. The winners will be announced, and prize money will be presented at 3:30 pm on Aug. 23 in the Design Emphasis Gallery in Hall C.
- Network and take advantage of the opportunities to learn new methods and solutions to your business challenges from industry leaders during booth visits, conferences, or just talking on

the show floor. Help your company work more efficiently and become more profitable.

- IWF will host a Woodworking Influencers Lounge for the first time during the show. The lounge will be adjacent to the IWF Network News exhibit, in BC hall.

For more information and updates about IWF 2022, visit iwfatlanta.com.

Stop by **Booth A10849** and meet the newest addition to the Chatternator™ Family

You asked and we delivered!

The **NEW** Chatternator™ 12" Profile Sander has a sanding hub that can sand up to 12" of material at one time without distorting the profile — perfect for wide trim, multiple pieces of narrow trim, or small cabinet doors

Also available are the original 6" Stand Alone Profile Sander and Add On model (fits Woodmaster 718)

The Chatternator™ Profile Sander is a must have for Woodworkers who **HATE** sanding and want to save time, money, and physical wear and tear!

Tips to navigate IWF 2022

To get the most out of the IWF, here are tips for navigating North America's largest woodworking show.

Logistics: Show hours at the GWCC are 8:30 a.m. to 5:00 p.m. Tuesday through Thursday, and 8:30 a.m. to 2:00 p.m. on Friday.

The GWCC is located in downtown Atlanta, near Centennial Olympic Park, at 285 Andrew Young International Blvd. It is within easy walking distance of most downtown hotels, and a complimentary shuttle bus service also is available from select hotels.

Comfort is key: Be sure to wear comfortable shoes. IWF stretches across more than 1.5 million square feet. Halls A and B will have machinery and related products/services, Hall C will have components/supplies, non-machinery related products/services, and Hall B/C will be a mix of components/supplies, machinery and non-machinery products/services.

Stay on top of news: Woodworking-Network.com (Twitter: @woodworkingbiz) will post show news throughout

the day. Also make sure to grab a copy of Woodworking Network's IWF Show Daily, filled with news and pictures, as well as the IWF floor plan.

Get educated: IWF also offers educational sessions Tuesday through Thursday related to: Business Management, Manufacturing & Design, Marking & Business Development, and Workforce Maintenance & Organized Culture. Go to IWFAtlanta.com.

See award-winning exhibits: Be sure to check out the products entered in the IWF Challengers Award. A list of 2022 Challengers Award entries and finalists can be found at IWF's website. Winners of the distinguished Challengers Award will be announced at 11:00 a.m. on Aug. 23, at the IWF Challengers Award Gallery located in Hall B, Level 2, overlook area.

Also check out the Design Emphasis Showcase and competition featuring furniture pieces designed and built by college students. Winners will be announced, and prize money presented at 3:30 pm on Aug. 23 in the Design

Emphasis Gallery in Hall C.

Get a deal: Exhibitors are often willing to sell a machine displayed at the show rather than incur the costs to ship it back to the facility. There may be a good deal to be had, so don't hesitate to inquire.

Network opportunities: Don't hesitate to ask questions or seek advice, and be sure to inquire about the products and services that can help improve your business.

August 23 – 26, 2022
Come visit us in Atlanta!

RAW MATERIAL SHORTAGES ARE CHALLENGING THE MDF INDUSTRY. OR SO WE'VE BEEN TOLD.

The World's First Rice Straw MDF. A Naturally Abundant Solution.

Eureka™ Sustainable High Performance MDF is made by transforming readily available and abundant post-harvest rice straw into a material that matches the performance of traditional wood MDF. In a world challenged by supply shortages, Eureka MDF represents an innovative and consistent solution for the woodworking industry.

UNEXPECT THE ORDINARY.

Eureka
SUSTAINABLE HIGH PERFORMANCE MDF

Innovation

Evolved

Introducing the newest member of the COMPACT family

COMPACT CLIP

The COMPACT CLIP hinge combines more than 50 years of innovations. The clip technology allows easy clip-on installation and three-dimensional adjustability, allowing for fast and accurate door attachment. We consistently think of new ways to streamline processes and design products that reduce the risk of callbacks, saving our customers time and money. It's this innovative thinking that gives you the peace of mind knowing your work has quality products you can count on - now and for years to come.

The Easy Way to Make Custom Cabinets *With No Programming*

Designed and Engineered in America, the Cut Ready Cut Center is made to simplify and automate your production.

*The Cut Center takes care of both the big
and small details so you don't have to!*

It allows you to remain a cabinet shop, focused on making custom cabinets, instead of a software company, worried about learning difficult and expensive software.

MADE IN USA

What Cut Center Owners Are Saying:

Visit Us at Booth #B6213

THE NEW SATAjet K 1800 spray mix – High pressure coating has never been easier

The new lightweight gun in this spray gun class with its well-balanced gun body combines an optimized ergonomic design with a finely-tuned nozzle range and with the innovative clampLock paint needle system.

The SATAjet K 1800 spray mix is an excellent tool for a wide range of applications in various sectors – from the woodworking and automotive industry to machinery, steelwork and also shipbuilding and container construction.

- Low weight (starting with 14.5 oz, depending on spray gun version)
- High surface quality at a pressure in the range of 500 - 3625 psi
- Application of water- and solvent-based paint systems
- Single-axis trigger system for low trigger forces, fatigue-free working

"The PivotLine System has been, hands-down, one of our best purchases."

Chad Hamilton, Co-Owner
Pig House Cabinets, Ringgold, GA
pighousecabinets.com

Watch the full interview by scanning the code with your phone's camera

PIVOTLINE™

Chad Hamilton of Pig House Cabinets shares his impressions of the PivotLine Manual-Rail Finishing System.

"The biggest transformation to our finishing process was being able to finish both sides of a door at the same time.

"Like most shops, we were using trees and spraying one side and waiting 8 hours for it to cure-out so you could stack it or flip it and finish the other side.

"The flat finishing workflow is tedious and full of wasted movements. You take the door off the tree, set it down on a turntable, pick up your gun, spray the door, set the gun down, put the door back on the tree and repeat.

"You're constantly picking up and setting down the gun and the doors. All of that is eliminated with the PivotLine System."

"Before we switched to the PivotLine System our spray booth was one of the slowest places in our shop. The PivotLine System has totally removed the bottleneck from our finishing process, and for the first time, our finishing is keeping pace with our fabrication.

"The PivotLine System has been, hands-down, one of our best purchases and one of the most drastic improvements we've made to our shop. It's met every single one of our expectations - we're very happy with it."

For more information visit guffeysystems.com

PivotLine mobile rails allow for touch-free handling, finishing, and movement of parts and materials throughout the finishing process.

Our patented PivotLine rail cars pivot and lock at 90° increments giving the finisher a stable platform to easily spray all sides of the material.

Innovation Made with You in Mind

Designed for outdoor applications and high-humidity environments, Armorite™ Exterior MDF offers the versatility and durability you need for signage, exterior trim, outdoor kitchen cabinets, shutters, sheds, bathrooms, mudrooms, and more. Manufactured with a formaldehyde-free resin, Armorite™ resists water (MR50 rating) and uses zinc borate to prevent rot, decay, and termites.

Engineered Flooring Production Specialists

We can help you with your engineered flooring needs!

WINTERSTEIGER
Thin-cutting & Repair

Precision Thin-Cutting Frame Saws
for any output volume requirements. We have been the leader in frame saws since 1970.

Precision Thin-Cutting Band Saws
in many configurations to meet your exact requirements including future growth in output volume and your product variations. Cutting up to 26" wide with +/- 0.008" tolerance, 0.043" cutting kerf and a surface quality ready for glue!

TRC Timber Repair & Cosmetics

With this technology you now can repair larger knots and cracks than before with traditional putty. The void is filled 100 % in depth allowing for no failures, no shrinkage, no cure time, can be handled, stacked or sanded immediately, and this application only takes seconds!

Panel Process Like a Pro Without the Pro Price Tag

***Come see us at booth B8029
to watch our CNC tools in action!***

With a ShopBot CNC, you can increase production throughput while minimizing material handling. For example, you can drill shelf pin holes, cut rabbets and dados, and profile-cut the completed panel. The operator only needs to handle the full sheet once to load the machine, and then remove the perfectly cut parts that are ready for assembly.

Thanks to the affordability of ShopBot's professional grade CNC tools, the technology of manufacturing cabinet boxes, doors, drawer fronts, shelves, and even countertops, is now well within the reach of smaller shops, not just large cabinet manufacturing facilities.
