## **STILES SPECIALIZES IN PUTTING NEW TECHNOLOGY AND NEW THINKING TO WORK FOR MANUFACTURERS OF ALL SIZES AND INDUSTRIES**

As one of the world's leading providers of advanced manufacturing equipment, we bring you quality machines – backed by our experienced and responsive support team, extensive parts and upgrade capabilities, and nationally accredited education program. We are here to help you achieve new levels of performance and productivity.

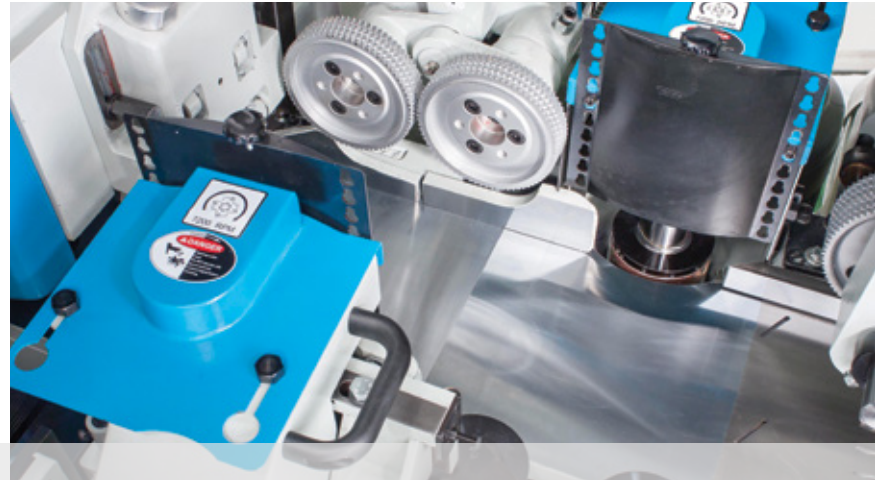

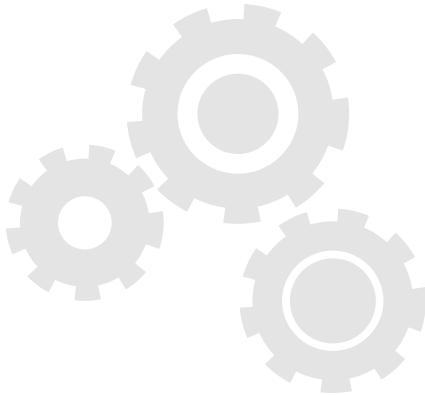

## EQUIPMENT FOR THE SELECTIVE CRAFTSMAN

IRONWOOD rip saws, boring machines, planers, jointers and shapers have already established themselves as the rugged, highly accurate standard that is also reasonably priced. A Stiles-owned brand, IRONWOOD machines set a new standard for advanced equipment that provides strong value. The machines are designed to deliver the needs of even the most selective craftsmen and are supported by Stiles' incomparable parts and service offering.

## **EFFICIENT AND HIGH QUALITY MOULDERS, RIP SAWS AND CROSS CUT SAWS FOR THE WOODWORKING INDUSTRY**

KENTWOOD offers the best in quality, craftsmanship, and value for today's modern woodworker. Backed by industry leading service and support, Stiles Machinery's line of moulders, rip saws, and chop saws offer you the best in value for optimum results - plus innovative material handling to help grow your profitability.

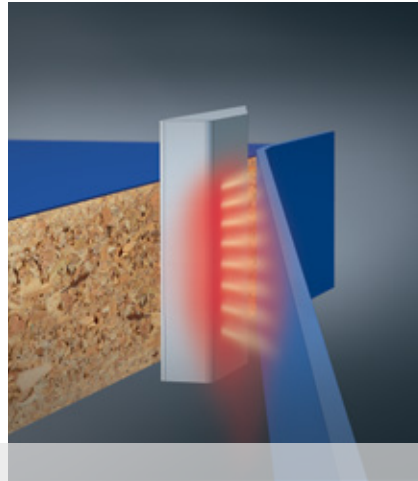

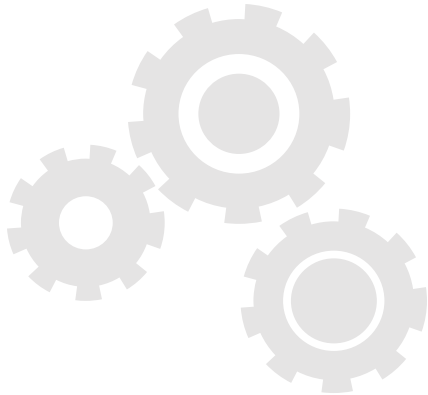

## THE UNDISPUTED LEADER IN SLIDING TABLE SAWS

Stiles is proud to represent ALTENDORF, for their long history, for their commitment to excellence, and for their 100% focus on sliding table saws. We offer a variety of ALTENDORF Sliders, ranging from entry-level models with manual controls to sophisticated models offering features to greatly enhance throughput and operator digital interactivity. Other features across the product line include motorized blade positioning, motorized crosscut miter fences, motorized rip fences, and incrementally adjustable speeds.

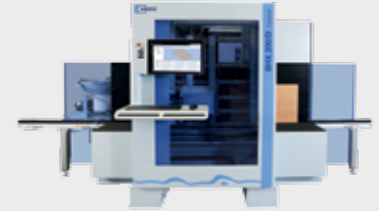

## FOCUSED ON MAKING THE INDUSTRY'S BEST EDGE PROCESSING MACHINERY

BRANDT offers you an array of machines, all providing excellent off-the-end product quality and quick changeover times. Technology has never been more affordable than in today's BRANDT edgebanders, with features like contour trimming and zero edge capability available on even the lower-priced entry-level models.

## REVOLUTIONARY MACHINERY FOR THE WOOD PROCESSING INDUSTRY

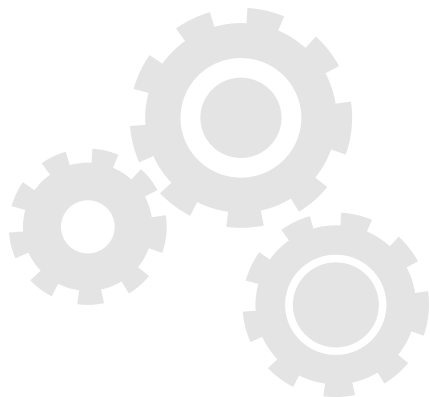

Stiles is proud to offer a complete line of CNC drilling, routing and assembly machinery made by WEEKE, part of Germany's HOMAG Group. In addition, we established a joint venture with the HOMAG Group and WEEKE Maschinenbau to form HOMAG Machinery North America, a 75,000-square-foot plant in Grand Rapids, Michigan that manufactures selected WEEKE routers and drilling/dowel insertion machines.

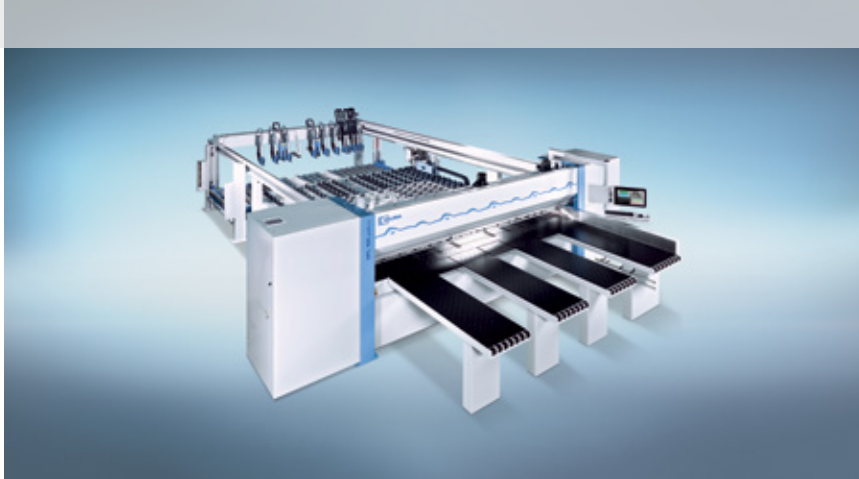

## IDEAL FOR SANDING FLAT PANELS FOR CALIBRATION, FINE FINISH AND VARNISH

For over 60 years BÜTTERLING has specialized solely on making sanding machines, focusing on research and development to create machines that offer the latest in sanding technology and live up to the company's reputation for high build quality and dependable performance.

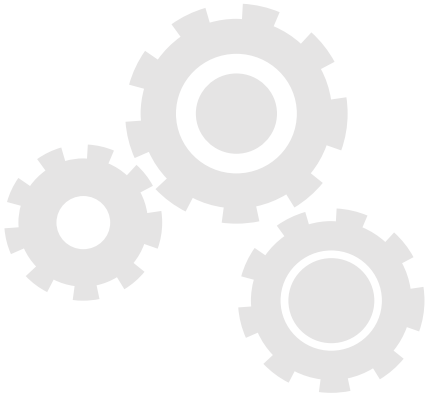

## THE WORLD'S LEADER IN HORIZONTAL BEAM SAWS

HOLZMA is the largest manufacturer of beam and panel saws in the world. These machines provide tight tolerance cutting of virtually all types of panel material. The product portfolio comprises of front-loading or rear-loading horizontal beam saws and angular systems - available for single-saw applications as well as large-scale industrial units with automatic feed and stacking systems. HOLZMA offers a host of proprietary features that are unavailable anywhere else, including optimization software.

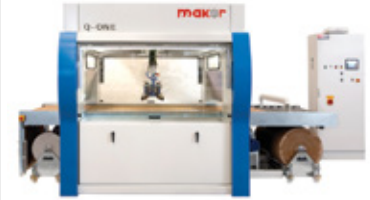

## **FAST, EFFICIENT, AND ACCURATE MATERIAL HANDLING SOLUTIONS**

Offering a line of storage & retrieval systems, panel flippers, feeders & stackers, case clamps, and return conveyors, HOMAG Automation reduces the use of valuable floor space and features automatic inventory control.

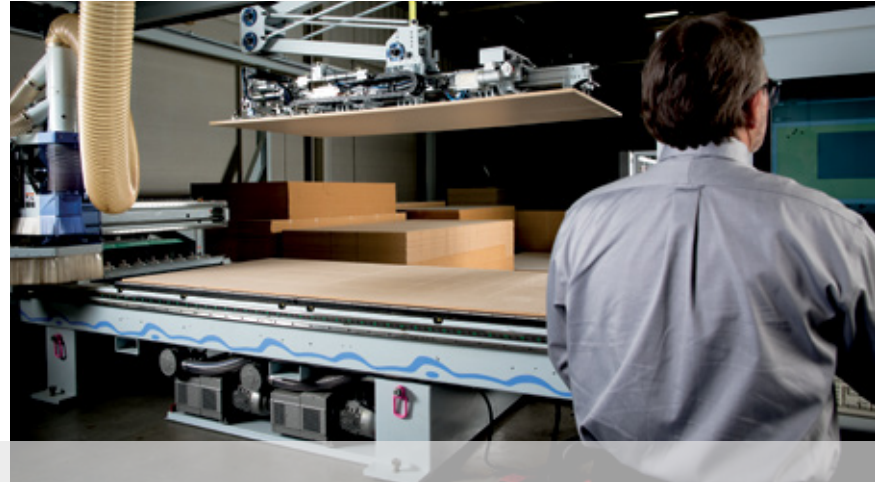

## FINISHING SOLUTIONS FOR WOOD, COMPOSITES, PLASTICS & METAL

Stiles offers a broad selection of premium, cost-effective finishing solutions. Our team of experts understand the importance of finishing your work pieces to superior levels of excellence and can help assess the best solution for your applications. Stiles provides equipment that spans multiple industries: from kitchen cabinets to architectural millwork; automotive to plastic component suppliers; or flooring to store fixtures. We are North America's premier finishing laboratory, with a showroom full of cutting-edge technologies ready to test your new ideas.

## IMPROVE PERFORMANCE, VERSATILITY AND PRODUCTION THROUGH STILES INTEGRATION CAPABILITIES

We can make sure your machines are connected, communicating and working together. We provide hardware, software and diagnostic tools that give operators and owners sophisticated control over single machines – and entire systems that network to streamline workflow throughout your organization, from front office to shop floor.

STILES SOFTWARE

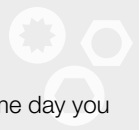

## READY WHEN AND WHERE YOU NEED US

When you need someone onsite, more than 150 Stiles Field Service Representatives – the industry's largest factory-certified team – are ready to help. We have five regional locations and are prepared to respond wherever you are.

## RIGHT PART, RIGHT AWAY

Stiles can get the right part to you, fast – typically the same day you contact us. We maintain an extensive inventory of more than 100,000 parts. If Stiles does not stock it, we will find a way to get it to your door quickly.

## LEARN HOW TO SUCCEED

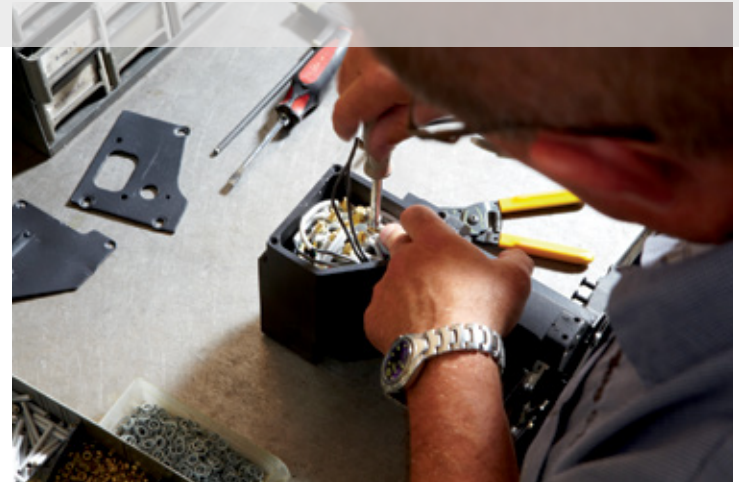

Stiles University offers the industry's only program certified by the International Association of Continuing Education (IACET). Choose from more than 40 courses or join us for a conveniently scheduled session at one of our training centers, online or at your facility.

## ENHANCE YOUR CAPABILITIES

We can apply fresh innovations to your processes to achieve improvements in efficiency, performance and quality. Or, focus on upgrading a particular machine or system, adding hardware, software or tooling that may not have been an option when first installed.
